ETHOS ARCHITECTS

HIGH SCHOOL ADMINISTRATION AND CLASSROOM ADDITION

This new 18,787 SF, ground-up addition for Collinsville High School expands academic and administrative space with eight classrooms, a new front administrative office, a science lab, and a hardened storm shelter. Ethos is providing architectural and interior design services to create a safe, functional environment that supports both daily operations and evolving educational needs.

Designed to integrate seamlessly with the existing high school campus, the addition strengthens instructional capacity while enhancing student support spaces and campus safety.
