

TULSA CARES

A 16,800 S.F. facility which features counseling & administration offices, meeting rooms, break areas, a commercial kitchen, a dining hall, a public food pantry, and storage. By working closely with the entire staff of Tulsa CARES to understand how they operate, what they offer, and how they would like to grow, Ethos transformed and expanded what was an old church into a facility which will meet their needs for years to come. Ethos is currently working with Tulsa CARES to assess feasibility for an expansion to their facility and is excited to partner with them on the growth of their services and outreach.
