

NOWATA BUSINESS DEVELOPEMENT CENTER

Tri County Tech partnered with the Boys and Girls Club of Nowata to create an educational facility. Both groups share the goal of helping individuals reach their full potential, inspiring youth and adults, as well as supporting local businesses with training programs.

The new building features a full-size commercial kitchen, full-size gymnasium, industry training rooms, computer lab, 4 classrooms, community meeting room, outdoor recreation space, and two indoor recreation areas (elementary & teen). A cost effective project, thoughtful use of finishes and materials enhance the building and user experience. The facility serves to continue the efforts of the Boys and Girls club of Nowata with classroom and after school care options, and also enhances the offerings of Tri County Tech. The gymnasium will also be used for local sporting events.
