

## EMERGE SPA & SALON AT RIVER SPIRIT CASINO

This beautiful space features natural materials, warm lighting, glistening accents, and a calming sea-scape motif. Wood and water are juxtaposed throughout, inviting clients to be refreshed as they are pampered. The perimeter of the spa space is lined with full-length windows which created a challenge for the privacy necessary in a spa environment. Frosted windows ensure clients' privacy while capitalizing on natural light. The careful composition of materials create a high-end, relaxing escape.
