

## HENRY ZARROW CENTER FOR ART AND EDUCATION

Ethos worked in close conjunction with both the University of Tulsa and Gilcrease Museum throughout the design and construction of this project. The Henry Zarrow Center is within the historic Mathews Warehouse. It occupies three stories including TU School of Art classrooms, art studios, a fine arts gallery, and a reception area.

Many exposed beams and bricks of the original building are featured design elements, celebrating the building's history, creating interesting visuals, and keeping the project in budget.
