

PHILTOWER LOFTS

Since its construction in 1927, Philtower has been an iconic part of Tulsa's Art Deco landscape. Ethos redesigned floors 12 through 20, traditionally housing businesses and retail enterprises, into Tulsa's first adaptive reuse high-end residential living experience. Twenty-six luxury loft apartments featuring both one- and two-bedroom floor plans occupy floors 12 through 20, and a rooftop terrace gives residents a birds-eye view of greater Tulsa.
