

QUEENIES PLUS, CAFE & BAKERY

A Tulsa staple at the historic Utica Square shopping center, Queensies spent years serving their delicious food out of a storefront that they had outgrown. Once the right space came available in the shopping center they made their move to a new space. The new design doubled their kitchen and display space and allowed them to add more tabletops inside and on their patio. The space also incorporated a critical delivery/staff entry that the old space was lacking.

The light, airy finishes are beautiful yet durable to constant cleaning and high traffic loads. Flexible furniture and built-in banquetts provides seating for groups of all sizes. The owners love showcasing local artists and the neutral palette sets the perfect backdrop for the ever changing art-of-the-month. Overall the design captures the warm, welcoming spirit of the original Queensies and provides an updated space with the same atmosphere customers loved.
