

VILLAGE ON MAIN

Our vision for the future of a 25-acre portion of central Jenks resulted in a pedestrian-friendly, mixed-use development Master Plan including office, residential, medical, and retail sectors. The concept linked downtown Jenks, the Oklahoma Aquarium, and Riverwalk Crossing, extending the small-town charm of Jenks Main Street throughout the new "village." This town center concept Master Plan resulted in the successful ongoing redevelopment of the area, including Ethos-designed Utica Park Clinic and First Oklahoma Bank.
