

GLENPOOL HIGH SCHOOL CHEER & WRESTLING ADDITION

This 28,800 SF addition to Glenpool High School expands the existing athletics facilities to support the growing cheer and wrestling programs. The project extends the current football locker room complex to include new locker rooms, dedicated practice spaces for both programs, coaches' offices, an athletics office, and a safe room, creating a cohesive environment tailored to student-athletes.

Ethos provided architectural and interior design services, along with construction and as-built coordination, to deliver a functional and durable facility that supports daily training, team development, and competition preparation. The addition enhances organization, program identity, and long-term flexibility, strengthening Glenpool's commitment to its athletics programs.
