

GLENPOOL INTERMEDIATE ADDITION

This 2,515 SF addition to Glenpool Intermediate School enhances campus functionality by providing new administrative offices, a workroom, and much-needed student restroom facilities. The project addresses critical space needs while improving daily operations for both staff and students. Ethos provided architectural and interior design services, along with construction and as-built coordination, to deliver a compact, efficient addition that integrates seamlessly with the existing school. The new spaces improve circulation, support staff workflows, and enhance the overall student experience within the campus.
