

TCCL SOUTH BROKEN ARROW

The South Broken Arrow Library expands opportunities for learning, collaboration and community engagement through a new, significantly larger library designed to serve the evolving needs of the surrounding community. With approximately 20,700 square feet of interior space, the facility is nearly three times the size of the existing library and increases the collection capacity by 40%.

Flexible spaces support a variety of activities and age groups, including a dedicated makerspace, four huddle rooms, four collaboration and flexible homeschool classroom spaces, and a meeting room accommodating approximately 260 people. Outdoor amenities further extend the library experience with an adult patio, a children's patio featuring an amphitheater with seating for 80, and a StoryWalk. A convenient drive-through window also allows patrons to drop off and pick up materials with ease.

Together, these features create a welcoming, adaptable destination that supports lifelong learning, creativity and connection throughout the South Broken Arrow community.
